^Subject to Run Down Period as defined below.

Note:

1. Each Approved RSS 3 Packer shall be identified by the Packer's Code set out in the fourth column in the above table. Any conflict in the identifying information used shall be resolved in favour of the Packer Code.
2. The RSS 3 Packer List may be amended from time to time, and (subject to the Run Down Period as defined below for removal of factories) all documents issued on or after the date on which such amendment takes effect shall use the amended List accordingly. For the avoidance of doubt, any document issued before such amendment takes effect shall continue to use the List which was applicable before the amendment.
3. A Packer which has been removed from the RSS 3 Packer List, continues to be tenderable on documents issued up to the end of two Delivery Months after date of removal ("Run Down Period"). SGX may at its sole discretion provide for a shorter or for no Run Down Period to apply. E.g. if the removal date is on 25 June 2019, rubber will still be tenderable in July and August Delivery Months, but will no longer be tenderable from September Delivery Month onwards.
4. Only rubber from an Approved RSS 3 Packer which is in the above List on the Last Trading Day of the Delivery Month can be used to fulfill that Delivery Month's delivery obligations, e.g. for Jan 2012 Delivery Month, the Last Trading Day is 30 Dec 2011.
5. This list may be amended by SGX from time to time.

As of 25th June 2019
